THE CLAIMS

A detailed listing of pending claims 1-9, 16-19, 21-26 and 33-36 is provided below. A status identifier is provided for each claim in a parenthetical expression following each claim number.

 (Currently Amended) A method of providing a mobile computing unit with privileged access to a computing resource, the method comprising the steps of:

determining that the mobile computing unit has failed to present adequate user identifying information when attempting to access the computing resource detecting a failure of a user of the mobile computing unit to complete a logon to access the computing resource:

obtaining credentials with a unique machine identifier to facilitate authenticating an identity of the mobile computing unit;

providing the credentials to an authenticator to prove the machine identity, the authenticator controlling access to the computing resource; and

establishing limited access to the computing resource using authorization information obtained from the authenticator that reflects a relative security level for a user of the mobile computing unit, the authorization information corresponding to the authenticated identity of the mobile computing unit.

- 2. (Original) The method of claim 1 wherein the mobile computing unit communicates with the computing resource using at least one wireless link.
- (Original) The method of claim 1 wherein the authorization information includes a key for encrypting communications from the mobile computing unit to an input port.

	4.	(Original)	The method of claim 3 wherein the key is a symmetric	
session key.				
	5.	(Canceled)		
	6.	(Canceled)		
	7.	(Original)	The method of claim 1 further comprising the step of	
storing the unique machine identifier on the mobile computing unit for subsequent				
use.				
	8.	(Original)	The method of claim 1 further comprising the step of	
storing the certificate on the mobile computing unit.				
	9.	(Original)	The method of claim 1 further comprising the step of	
receiving the unique machine identifier.				
	10 - 15. (Canceled)			
	16. – 1	16. – 19. (Canceled)		
	20. (Canceled)			

21. (Currently Amended) A computer-readable medium having computer executable instructions for performing the steps of a method of providing a mobile computing unit with privileged access to a computing resource, the method comprising the steps of:

denying the <u>mobile</u> computing unit access to the computing resource for failure to provide adequate user identifying information failure of a user on the mobile computing unit to complete a log-in to gain unlimited access to the computing resource:

obtaining credentials with a unique machine identifier to facilitate authenticating an identity of the mobile computing unit;

providing the credentials to an authenticator to prove the machine identity, the authenticator controlling access to the computing resource; and

establishing limited access to the computing resource using authorization information obtained from the authenticator to reflect a relative security level for a user of the mobile computing unit, the authorization information corresponding to the authenticated identity of the mobile computing unit.

22. (Canceled)

- 23. (Original) A computer-readable medium as in claim 21 having computer executable instructions wherein the mobile computing unit communicates with the computing resource using at least one wireless link.
- 24. (Original) A computer-readable medium as in claim 21 having computer executable instructions wherein the authorization information includes a key for encrypting communications from the mobile computing unit to an input port.

- 25. (Original) A computer-readable medium as in claim 21, having computer executable instructions for performing the additional step of storing the unique machine identifier on the mobile computing unit for subsequent use.
- 26. (Original) A computer-readable medium as in claim 21, having computer executable instructions for performing the additional step of storing the certificate on the mobile computing unit.
 - 27. 32. (Canceled)
 - 33. 36. (Canceled)
